Dr. Christic's Galvanic Rings and Magnetic Fluid.

THIS remarkable invention, which has received the almost universal approbation of the medical profession of Great Britain, comprises an entirely new application of Galvanics, as a remedial agent by means of which the ordinary Galvanic Batteries, Electric and Magnetic Machines, &c. are entirely, dispensed with, and the mysterious power of Galvanian and applied without any of the objections which are inseparable from the general mode now in use.

The Galvanic Rings have been used with entire success in all cases of remunaism, acute or chronic applying to the head, face, or limbs; gout, ticedological acute of the control of the control applying to the head, face, or limbs; gout, ticedological acute of the control of the control applying to the head, face, or limbs; gout, ticedological acute of the control applying to the head, face, or limbs; gout, ticedological acute of the control applying to the head, face, or limbs; gout, ticedological acute of the control applying to the head, face, or limbs; gout, ticedological acute of the control applying to the head, face, or limbs; gout, ticedological acute of the control applying to the head, face, or limbs; gout, ticedological acute of the control applying to the head, face, or limbs; gout, ticedological acute of the control applying to the head, face, or limbs; gout, ticedological acute of the control applying to the head, face, or limbs; gout, ticedological acute of the control applying to the head, face, or limbs; gout, ticedological acute of the control applying to the head, pains in the control acute of the control acute of the control acute of the control applying to the head, face, or limbs; gout, ticedological acute of the control acute of the control applying to the head, face, or limbs; gout, ticedological acute of the control acute of the cont

THE GALVANTE BELTS, BRACKETS, BANDS, GANTERS, NECKLALS, &c. &c.—These articles are adapted to the waist, arms, wrists, limbs, onkics, or any part of the body with perfect convenience. The Calvaine Necklaces are used with greater benefit in cases of brouchits or affections of the throat generally; also, in cases of nervous deafness; and with simost uniform success as a preventive for appoplexy, epiteptic fits, and similar complaints.

Christie's Magnetic Fluid is used in connexion with the Galvanic Rings, and all their modifications. This composition has been pronounced by the French Chemists to be one of the most extraordinary discoveries of medern science. Full explainations and directions accompany it. The combined inventions are in every way perfectly barmless, they are at prices within reach of all, and the discoverer only requests a fair trial, as a test of their surprising efficacy and permanent benefit.

CHRISTIE'S GALVANIC STRENETIENINE PLASTERS. Those articles form another valuable application of the mysterious influence of Galvanian. They are an important adjunct to the genuine Galvania. Rings and their modifications, acting upon the same principle, but having the advantage of more local application. They are confidently recomended as a valuable addition in the speedy cure of rheumatism, cute or chronic; in all nervous complaints, and as a positive remedy in cases of pain and weakness in the chest or back, pain in the side, in astimatic affections and in weakness or oppression of the pulmonary organs. In spinal complaints their effects are of the most decided character, and they have often been used with complete success. They are also of the greatest advantage in pains and weakness of the breast, and are highly recommended for many of those complaints to which fethiates are especially inhole. As an effectual means for strengthening Plasters will be found of great and perinsticit advantage.
